

March 10, 2014

There are various glossaries related to MSE, stock assessment and risk.

1 MSE

The main reference for terminology is in Rademeyer et al. (2007)

2 tRFMOs

Some of the tRFMOs have their own glossaries ICCAT <http://www.iccat.int/Documents/SCRS/Other/glossary.pdf>
IOTC <http://www.iotc.org/files/proceedings/2012/sc/IOTC-2012-SC15-INF03.pdf>

3 Risk

The International Organization for Standardization (ISO) is the world's largest developer of voluntary International Standards. International Standards give state of the art specifications for products, services and good practice, helping to make industry more efficient and effective. Developed through global consensus, they help to break down barriers to international trade. They have a standard for Risk Management see

ISO 31000:2009 http://www.iso.org/iso/catalogue_detail?csnumber=43170
